

TEST_F

```
graph LR; A[TEST_F] --> B["traffic_signal_controller  
_service::tsc_service::  
initialize_intersection_client"]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text 'TEST_F'. A dark blue arrow points from the right side of this box to a larger white rectangular box on the right. This white box contains three lines of text: 'traffic_signal_controller', '_service::tsc_service::', and 'initialize_intersection_client'.

traffic_signal_controller
_service::tsc_service::
initialize_intersection_client
