

streets_utils/streets
_api/intersection_client
_api/OAIHttpFileElement.h

```
graph TD; A["streets_utils/streets  
_api/intersection_client  
_api/OAIHttpFileElement.h"] --> B["QJsonValue"]; A --> C["QMetaType"]; A --> D["QString"];
```

The diagram illustrates the dependencies of the header file `_api/OAIHttpFileElement.h` (located within the `streets_utils/streets` directory). Three blue arrows point from the header file box to the boxes representing the Qt classes it depends on: `QJsonValue`, `QMetaType`, and `QString`.

QJsonValue

QMetaType

QString
