

streets_vehicle_scheduler
::vehicle_scheduler::get
_entry_lanelet_info

streets_vehicle_scheduler
::vehicle_scheduler::get
_link_lanelet_info

OpenAPI::OAILanelet
_info::getId

```
graph LR; A[streets_vehicle_scheduler::vehicle_scheduler::get_entry_lanelet_info] --> C[OpenAPI::OAILanelet_info::getId]; B[streets_vehicle_scheduler::vehicle_scheduler::get_link_lanelet_info] --> C;
```

The diagram illustrates two function calls on the left, each with a blue arrow pointing to a single target box on the right. The top box contains the text 'streets_vehicle_scheduler::vehicle_scheduler::get_entry_lanelet_info'. The bottom box contains the text 'streets_vehicle_scheduler::vehicle_scheduler::get_link_lanelet_info'. The target box on the right is shaded gray and contains the text 'OpenAPI::OAILanelet_info::getId'.
