

QObject

```
classDiagram
    class QObject
    class traffic_signal_controller_service {
        intersection_client
    }
    traffic_signal_controller_service --|> QObject
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'QObject'. Below it is a larger box labeled 'traffic\_signal\_controller\_service::intersection\_client'. A blue arrow points from the bottom of the lower box up to the bottom of the 'QObject' box, indicating that 'traffic\_signal\_controller\_service::intersection\_client' inherits from 'QObject'.

traffic\_signal\_controller  
\_service::intersection\_client
