

streets_service::streets
_configuration::initialize_logger

```
graph LR; A["streets_service::streets  
_configuration::initialize_logger"] --> B["streets_service::streets  
_configuration::get_singleton"]
```

A diagram showing a call from the `streets_service::streets_configuration::initialize_logger` function to the `streets_service::streets_configuration::get_singleton` function. The call is represented by a blue arrow pointing from the left box to the right box.
