

message\_services::models  
::vehicle\_status\_intent  
::asJsonObject

```
graph LR; A["message_services::models  
::vehicle_status_intent  
::asJsonObject"] --> B["message_services::models  
::vehicle_status_intent  
::getEst_path_v"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from left to right. The left box is white with a black border and contains the text 'message\_services::models', '::vehicle\_status\_intent', and '::asJsonObject' stacked vertically. The right box is gray with a black border and contains the text 'message\_services::models', '::vehicle\_status\_intent', and '::getEst\_path\_v' stacked vertically. A blue arrow points from the right side of the left box to the left side of the right box.
