

streets\_vehicles::status  
\_intent\_processor::process  
\_status\_intent

```
graph LR; A["streets_vehicles::status  
_intent_processor::process  
_status_intent"] --> B["streets_vehicles::status  
_intent_processor::from_json"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains three lines of text: 'streets\_vehicles::status', '\_intent\_processor::process', and '\_status\_intent'. The right box has a white background and contains two lines of text: 'streets\_vehicles::status' and '\_intent\_processor::from\_json'. The arrow is a solid blue line with a triangular arrowhead pointing towards the right box.
