

OpenAPI::fromJsonValue

OpenAPI::toJsonValue

OpenAPI::OAISerializerSettings
::getCustomDateTimeFormat

```
graph LR; A[OpenAPI::fromJsonValue] --> C[OpenAPI::OAISerializerSettings::getCustomDateTimeFormat]; B[OpenAPI::toJsonValue] --> C;
```

The diagram illustrates a dependency or relationship. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'OpenAPI::fromJsonValue' and the bottom box contains 'OpenAPI::toJsonValue'. On the right, there is a single gray rectangular box containing the text 'OpenAPI::OAISerializerSettings::getCustomDateTimeFormat'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'fromJsonValue' and 'toJsonValue' methods depend on or utilize the 'getCustomDateTimeFormat' property of the 'OAISerializerSettings' class.
