

streets_utils/streets
_api/intersection_server
_api/src/models/OAIObject.h

```
graph TD; A["streets_utils/streets  
_api/intersection_server  
_api/src/models/OAIObject.h"] --> B["QjsonDocument"]; A --> C["QjsonObject"]; A --> D["QMetaType"];
```

The diagram illustrates a dependency or inheritance relationship. A central box at the top contains the file path 'streets_utils/streets_api/intersection_server_api/src/models/OAIObject.h'. Three arrows originate from the bottom of this box and point to three separate boxes below it, labeled 'QjsonDocument', 'QjsonObject', and 'QMetaType'.

QjsonDocument

QjsonObject
