

```
signal_phase_and_timing  
::intersection_state::  
  get_epoch_timestamp
```

A diagram illustrating a transformation. On the left, a gray rectangular box contains the text 'signal\_phase\_and\_timing', '::intersection\_state::', and 'get\_epoch\_timestamp'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'signal\_phase\_and\_timing', '::intersection\_state::', and 'convert\_min\_mills2epoch\_ts'.

```
signal_phase_and_timing  
::intersection_state::  
  convert_min_mills2epoch_ts
```
